A  
Visualization  
is simply a  
Visual Representation  
of  
Information

# Exploring Information: Tables Vs. Graphs

Novel	Age at composition	Word-types	Repeated phrase-types	Indefinite words (%)
<i>Styles</i>	28	5027	7623	0.27
<i>Adversary</i>	32	5576	7320	0.39
<i>Ackroyd</i>	34	4833	7905	0.48
<i>Orient</i>	43	4692	8184	0.30
<i>Appointment</i>	47	4985	8071	0.39
<i>Curtain</i>	50	5131	7846	0.43
<i>Towards Zero</i>	51	4941	7680	0.50
<i>Announced</i>	59	5181	7596	0.45
<i>Destination</i>	63	5442	7426	0.36
<i>Ordeal</i>	67	4440	8221	0.58
<i>Clocks</i>	72	4827	8014	0.61
<i>Endless</i>	76	4159	8559	0.78
<i>Frankfurt*</i>	79	5583	7418	0.71
<i>Nemesis</i>	80	4631	8103	0.66
<i>Elephants</i>	81	3762	8821	1.02
<i>Postern</i>	82	4275	8249	1.23

## 5. An outlier: Christie's thriller

- *Passenger to Frankfurt* — thriller, not detective novel.
  - ▶ Written in her early to mid-70s, published at age 79.
- **Outlier:**
  - ▶ In phrase repetition; (A)
  - ▶ In vocabulary size; (B)
  - ▶ **Largest** vocabulary of all novels analyzed: Draws on vocabulary of much political commentary read by Christie in research for the novel.
- Not an outlier in use of indefinite words. (C)
- Demonstrates limitations of measures dependent on nature or genre of content, advantages of content-independent measures.

# What is “many eyes”

## About many eyes:

Many Eyes was created in 2007 by the [Visual Communication Lab](#), part of [Collaborative User Experience group](#), at IBM Research. It is brought to you now jointly by the Visual Communication Lab and [the IBM Cognos software group](#).

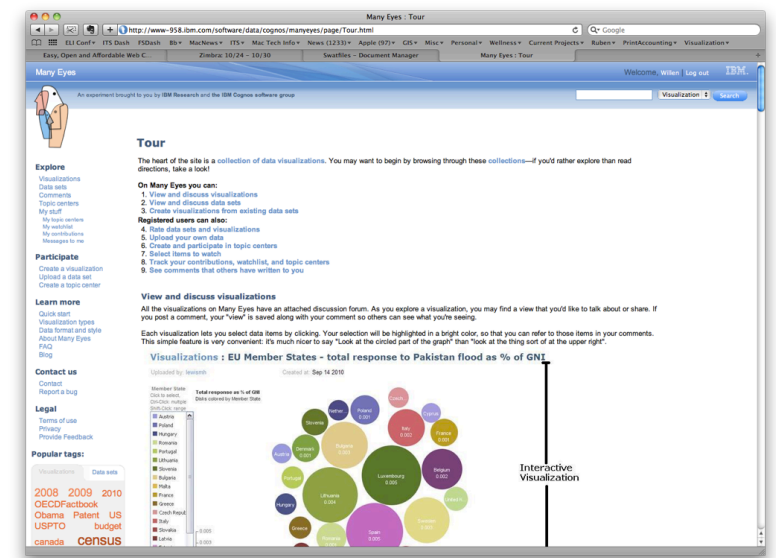

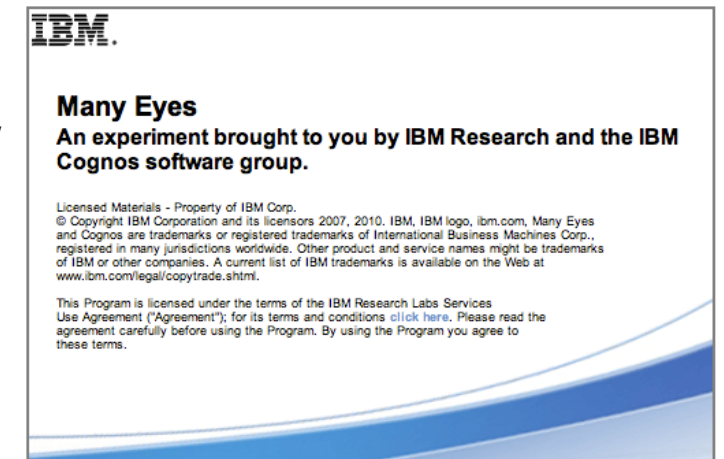

## Visualization Types:

[http://manyeyes.alphaworks.ibm.com/manyeyes/page/Visualization\\_Options.html](http://manyeyes.alphaworks.ibm.com/manyeyes/page/Visualization_Options.html)

## many eyes tour:

<http://manyeyes.alphaworks.ibm.com/manyeyes/page/Tour.html>

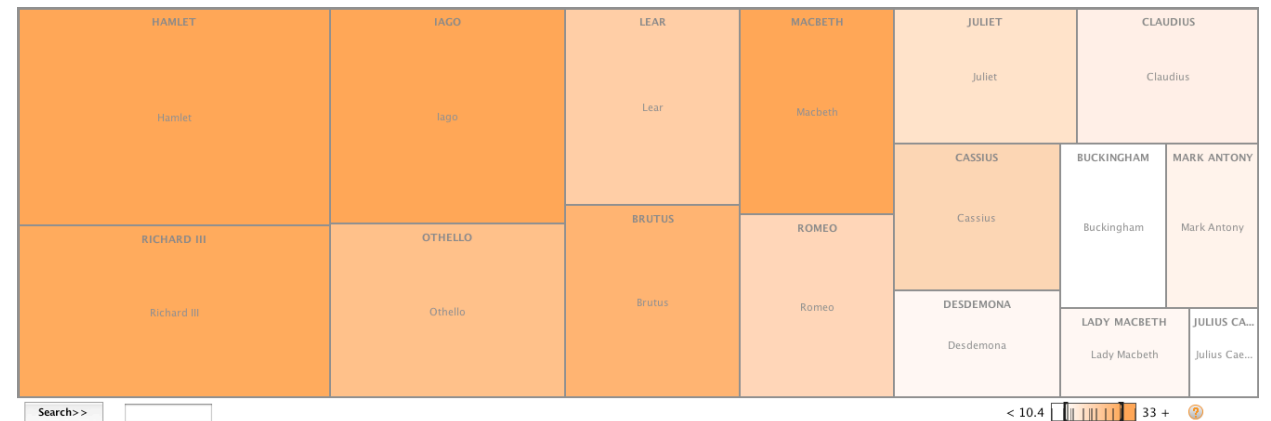

“**many eyes**” is a bet on the power of human visual intelligence to find patterns. The goal is to "democratize" visualization and to enable a new social kind of data analysis. “**many eyes**” exemplifies the design goal of transforming visualization from a solitary activity into a collaborative one, utilizing interactive visualizations to help people see and exchange information in novel ways.
